Our Mission

“Regulating the Electricity Industry for Efficient and Reliable Supply at Equitable Prices”

PUBLIC NOTICE: UMEME LIMITED LICENSE MODIFICATION

The attention of all stakeholder including the general public is drawn to the application for amendment of the two licenses issued to Umeme Limited by the Electricity Regulatory Authority for the Distribution of Electricity (Licence No. 046) and Sale of Electricity (Licence No.047).

Umeme Ltd seeks amendment as a consequence of the change in its ownership structure. The Commonwealth Development Corporation (CDC) Group Plc applied to the Authority to have its 100% stake held in Umeme Ltd by its subsidiary CDC Globelec transferred to Actis Infrastructure 2LP of London, United Kingdom. The change in stock holding, according to CDC, would enable Umeme Ltd access better funding available in the Actis Infrastructure fund. Both CDC Globelec and Actis Infrastructure 2LP are fully owned subsidiaries of CDC Group Plc. The Authority pursuant to Section 46 of the Electricity Act approved the change in stock holding to Actis Infrastructure 2LP of London.

In order to reflect the associated changes in stake holding in licenses Number 046 and 047 the Electricity Act section 45 (5) provides that modification of licenses by the Authority be advertised for 30 days for the public's attention. The proposed modification in the two licenses can be viewed at the ERA website www.era.or.ug and a copy can be obtained at the ERA office on Plot 15 Shimoni Road, Kampala. Those interested and the general public are hereby invited to make representations or objections to the Authority within the next thirty days in written form submitted to the contact below before 4:30 p.m. on 14th July 2009.
